LMS Platforms: Canvas, Moodle, Blackboard

Leadership: Cross-Functional Team Leadership, Remote & Distributed Team Management, Vendor & Client Relationship Management, Team Mentorship, Resource & Capacity Planning

PROFESSIONAL EXPERIENCE

Manager – Projects | Jul 2025 – Present

LearningMate Solutions Pvt. Ltd., Kolkata, India

- Engineered an AI-assisted ClickUp–Jira API integration (Python) that synchronizes ticket creation and maintenance across both platforms in real time, saving 1,200+ hours for Project Leads.
- Built AI-assisted Google Apps Script tools to automate day-to-day tracker maintenance, dashboard reporting, and notifications for the Project Management team, driving a 65% efficiency gain.
- Developed AI agents within ClickUp to automate task management, capacity planning, RAG (Red-Amber-Green) status reporting, and project plan generation.
- Oversee the Hotfix and Maintenance delivery pipeline for 5+ Higher-Education (Degree) university clients across the USA and UK, managing 20+ concurrent projects with remote, distributed teams while maintaining full SLA compliance.
- Lead the Special Projects portfolio end-to-end, aligning cross-functional teams to client requirements and internal revenue targets within a fast-paced, multi-priority environment.
- Serve as primary point of contact for project status, delivering regular updates to university stakeholders and internal leadership.

Lead – Projects | Jul 2024 – Jun 2025

LearningMate Solutions Pvt. Ltd., Kolkata, India

- Built an AI-assisted Canvas API automation toolkit (Python) for the QA and Implementation teams, saving 900+ hours of manual effort to date.
- Developed an AI-assisted Jira API automation tool (Python) to eliminate repetitive manual tasks for the Project Management team, saving 250+ hours.
- Spearheaded company-wide ClickUp automation adoption, building standardized templates and automated workflows and training 3+ teams, significantly cutting manual status-update effort.
- Managed intake, scoping, and end-to-end execution for 10+ concurrent EdTech projects across multiple functional teams using Agile and Waterfall methodologies, streamlining triage to shorten average delivery cycle time.

- Produced WBS documentation, risk registers, and project charters, standardizing project initiation and execution-focused delivery organization-wide.
- Maintained real-time dashboards and archival records in Jira and Looker Studio, improving cross-stakeholder visibility and audit readiness.

Lead – Content Technologies | Jul 2023 – Jun 2024

LearningMate Solutions Pvt. Ltd., Kolkata, India

- Directed a content-technology project portfolio exceeding \$50M in combined revenue value, owning resource allocation, scheduling, and milestone tracking across complex, multi-stakeholder engagements.
- Partnered with cross-functional teams (design, technical, client stakeholders) to proactively resolve blockers, maintaining on-scope, on-time delivery for enterprise EdTech clients.
- Managed vendor relationships and produced structured client status reports, sustaining a zero-escalation delivery record throughout tenure.
- Designed reusable, automated ClickUp project templates for recurring project types, reducing planning overhead and standardizing kickoff procedures.
- Mentored junior developers and QA team members on eLearning delivery standards, ClickUp workflows, and project documentation practices.

Senior Developer | Apr 2021 – Jun 2023

LearningMate Solutions Pvt. Ltd., Kolkata, India

- Served as Team Lead for the Quality Assurance and LMS Implementation teams.
- Led project cost-estimation and delivery audit processes, improving forecast accuracy across multiple concurrent client engagements.
- Built and maintained Looker Studio analytics dashboards, enabling data-driven performance reporting for project and content teams.
- Automated content migration and multi-LMS deployment workflows, reducing manual processing time and deployment errors.

Developer | Apr 2020 – Apr 2021

LearningMate Solutions Pvt. Ltd., Kolkata, India

- Published and QA-tested eLearning content on Canvas, Moodle, and Blackboard for US university clients, achieving zero post-delivery defects.
- Configured ClickUp for QA workflows, task allocation, and project tracking, accelerating team-wide adoption of structured PM practices.
- Facilitated client communications, translating technical updates into clear, stakeholder-ready summaries.

Consultant | Apr 2019 – Apr 2020

LearningMate Solutions Pvt. Ltd., Kolkata, India

- Executed LMS QA, client feedback reporting, and content management for the initial university project cohort, establishing the delivery baseline.

EDUCATION

B.Tech, Computer Science Engineering | 2013 – 2017

Techno India College of Technology, Kolkata
